

EdgeSeal Perimeter Isolation

- Very fast and easy to install.
- Lays flat and stays in place.
- Conceals minor subfloor irregularities - exact cutting is not necessary - EdgeSeal makes up for site cutting variances.
- Economical - No Waste!
- Ensures the integrity of the system

EdgeSeal & Duracoustic® - The Reliable Sound Control System

EdgeSeal is waterproof. It comes pre-hinged to conform to any contour. EdgeSeal is very flexible and easily conforms to outside and inside corners along the floor-walls locations. EdgeSeal is ideal for penetrations like columns, conduits, piping and transitions at door jams and stairways. Tape is used to seal against Duracoustic® to prevent leakage. Floor is ready for poured topping.

Standard Dimensions

EdgeSeal Coils 48" x 125' ft. (125 lin. ft.)
Also available to meet yield requirements.

Thickness: 6.35mm NOM.
